

STA 550 BK Stack Delivery

to
BSR 550 Servo die-cutter

BOGRAMA
next level die-cutting

Highly flexible Stacking System for very small formats

For the exact counting small format labels, business cards etc. into stacks, whether rectangular, square, round or contour-cut, for up to 9 product streams.

STA 550 BK Stack Delivery

- up to 150 mm stack height
- external and fast format change
- Interface to downstream systems

Vacuum belt for stable and careful transport in a shingled stream or as individual products.

For a fast format change an optional set of bulkheads can be prepared outside the stack delivery.

Interface to banding or packaging machine, rorobot or removal by hand.

STA 550 BK Stack Delivery

Applications:

Stacking and delivery of small format

- Labels
- Business cards
- Cards
